

Are the barriers at your track ready for the rule updates of 2007 and 2008? Would you like to upgrade to concrete barriers from guard rails?

Let Slip-Tech, Inc. and Cyrus Concrete Construction Inc. help you!

Slip-Tech, Inc. specializes in slip form concrete machines and forms used for cast in place concrete barrier walls. Slip-Tech was involved in the updating of safety walls at numerous NHRA and IHRA sanctioned tracks since 1997, including Indianapolis, St. Louis, Norwalk, Virginia, Atlanta, Columbus, Dallas, Englishtown, Moroso, Valdosta, Topeka, Mid State, Great Lakes, and many others. We have the proper slip form molds and experience with reinforcing steel

placement, timing system block outs, drainage outlets, and curing and finishing.

Last year, Slip-Tech and Cyrus Concrete joined together to bring clients a complete barrier wall package utilizing Slip-Tech's machine expertise with Cyrus Concrete Construction's expert installation. Recent projects include the walls at Atco Raceway Park in Atco, NJ and Heartland Park Raceway in Topeka, KS.

With the upcoming rule changes for barrier walls quickly approaching, Slip-Tech and Cyrus Concrete will be offering flexible financing, just contact us for details!!
